

Reception Homework—4/3/16

The ideas below are just some suggestions of things you can do this week to support the learning we have been doing in class. Record all learning in your child's homework book and feel free to write, draw, stick or take photographs (whatever you need to engage your child).

Literacy

 Use Espresso to play some of the phonic games. We have looked at -igh this week.

 We have learnt and performed the poem Flutter, flutter little bat. Ask your child if they can recite it.

Flutter, flutter little bat.

How I wonder where you're at.

Swooping through the darkest night -

You find your way without a light.

Flutter, flutter little bat.

How I wonder where you're at.

Mathematics

This week we have continued looking at taking away. Some children are really getting the hang of this. Keep practicing taking things away and asking How many left?

Now we can count in 10's, 2's and 5's keep revisiting these so children can say them forward and backward. Try clapping, skipping or saying them as you go upstairs.

★ Reception really enjoy using the technology we have in school (from ipads to the
★ dishwasher!) Write a list, draw pictures, cut pictures from magazines/catalogues and
★ talk about what machines/technology you might use at home.
★ **Please don't** stick this work into your child's homework book. We will place it in their
★ learning journey book and it will contribute towards the evidence we are collecting for
★ the end of Reception early learning goals.

Don't miss out on daily tweets about life in Reception.

Follow [@vptted](https://twitter.com/vptted) and share your child's learning at school. We love getting tweets about what your family are getting up to at home.
