

Spring Term 2 Topic Homework

Nocturnal Animals

This half term we will be looking at nocturnal animals especially Owls through the story Owl Babies. Over the next half term you can support your child's learning by doing some or all of the following activities.

Please bring in anything your child does so we can celebrate their efforts.

- Make a list of nocturnal animals.
- Find stories or information books about owls and other nocturnal animals.
- Make a picture of night time with pictures of nocturnal animals.
- Find out some facts about your favourite nocturnal animal - where does it live? What does it eat? What does it look like?
- Find and learn a rhyme, poem or song about night time or a nocturnal animal.
- Talk to your child about routines and times - what things do we do in the morning and the evening. When do we have breakfast? When do we have lunch? When do we sleep?
- Does anyone work at night? Find out about people who do jobs at night.

Thank you for your continued support.

Mrs Gunn
