

Mrs Cowling - Library Leader

It is my firm belief that every child should be given the opportunity to develop a love of reading. The library provides wonderful opportunities for children to independently select texts that interest and inspire them. Through visits to our school library and the local library, we provide children with invaluable reading experiences. Reading is a fundamental part of everything we do at Village Primary School and our aim is to ensure that all our pupils become competent readers, resulting in a huge contribution towards their educational achievement.
