

Miss Williams - ECO Leader

I am passionate about ECO and encouraging children to reduce waste so that we can be a more sustainable school. Our children are becoming increasingly aware of the positive impact they can have on our planet. Through leading the Eco Warriors team, I am able to share my own knowledge of sustainability, environmental concerns and how we can reduce, reuse and recycle. It is wonderful to see the enthusiasm and responsible mindset of children and staff across the school. Through becoming ECO Warriors, the children not only learn to care and protect for our planet but also develop transferable leadership skills.
