

Miss Simpson
SEN Teaching Assistant
Year 1

I am keen to support children with emotional, social and behavioural difficulties on a one to one basis. I am a patient, tolerant and caring person who works with children to enhance their individual self esteem and self worth.

I use many different positive behaviour strategies to enable children to reach their full potential. Using THRIVE techniques, speech and language strategies and physiotherapy I am able to set realistic achievable targets for each individual child.

I believe creating a positive home school partnership is a vital tool to enable the child to provide structure to their day and help them on their journey.
