Year 2

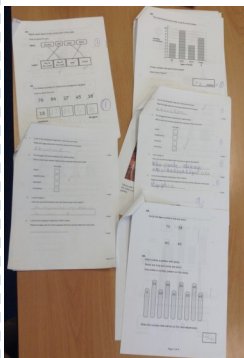

We have been looking at forgiveness in our Religious Education lesson.

We used chalk outside to show our designs.

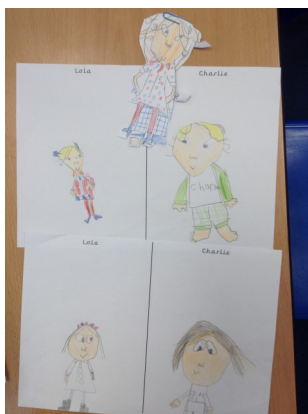

Reception

All Reception's hard work in maths is really paying off. This week we used an online adding machine and drew our own part-part-whole models to represent the number sentences. We also tried to make sure we counted on from the numbers - although some of the answers we just knew!

Year 2 have been working hard preparing for their SATs. The class has also enjoyed creating artwork inspired by Charlie and Lola.

Year 5 - The Ancient Greeks

We have made an excellent start on our History and Geography topic, the Ancient Greeks! We enjoyed creating our own Mythical creatures this week that we will feature in our Greek myth

'The eye shoots out red lazars.' Beaux

'It has a poisonous snake tail which it uses to defend itself.' Halle

'The head has no eyes because they were accidentally taken.'
Fletcher

'It has three heads. One head is part of the tail. The tail shoots venom.'
Lewis

VILLAGE VOICE

Year 3

Last Friday, across school we celebrated and commemorated the coronation of King Charles III. It was great to have such a fantastic atmosphere across school and school was decorated beautifully with an array of banners, bunting and children's designs. We hope you all had a lovely bank holiday weekend. In

Year 3, we loved our picnic with our class. It was a shame the we all had to have it inside our classrooms due to the weather but nothing is more British than that! We all wore our crowns of the Union Jack with pride and created our own version of a time capsule using online resources.

Nursery

This week in nursery our class text has been 'The Very Hungry Caterpillar'. We have been creating repeating patterns and learning about the life cycle of a butterfly.
